

State the term that best describes the given figure in the diagram.

1. G
2. \overline{AD}
3. \overline{AB}
4. \overline{DE}
5. \overline{CH}
6. H
7. \overline{BD}
8. \overline{FH}

In the diagram, \overline{BC} is the radius of circle C. Determine whether \overline{AB} is tangent to circle C. Explain.

In the diagram, \overline{BC} is the radius of circle C and \overline{AB} is tangent to circle C. Find the value of x .
